

FAASTeam presents:

Staying Alive in the Plane with SOPs

Did you know that general aviation accidents are statistically five hundred times more fatal than commercial accidents? Not a great track record. Collectively, the general aviation (GA) community needs to keep improving. CFI and author Jason Miller and others have conducted extensive research on the topic and found one major difference between GA and commercial operations: Standard Operating Procedures (SOPs). Standard procedures are part of the methodology of professional aviators and are a critical component to the outstanding safety record they maintain. In GA flight training, SOPs can sometimes be conspicuously absent. Where standard practices do exist they can often be vague, inconsistent in their application, or in some cases truly bad procedures passed down as lore from previous generations of pilots. Join us to learn tips on how to implement SOPs for even greater safety in the cockpit. Jason Miller has been teaching flying full time for the past 12 years. He is the creator and host of the popular podcast "The Finer Points of Flying." If he's not in the air or hosting a podcast session, Jason can be found authoring ibooks or iOS training applications. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are

Event Details

Wed, Jun 11, 2014 - 7:00 pm

San Carlos Flight Center

655 Skyway Rd

Suite 215

San Carlos, CA 94070

**Contact: San Carlos Flight Center
(650) 946-1700**

info@sancarlosflight.com

Select #: WP1556020

Representative Terry Fiala

committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking and call the Flight Center for a ride (650) 946-1700.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
